

To: The parents of EOA students
Date: 24 november 2020
Subject: Additional Corona measures

Dear parents,

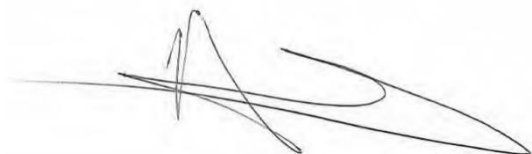

Last week, there have been several teachers whom got infected with the Coronavirus at the department in which your child gets their education. This has been worrying us as a school; therefore, we have come to the conclusion to teach less students at the same time, and to shorten our teaching hours.

This means that your child will have to come to school for 2 or 3 mornings. For the remainder of the time, they will receive homework, which they will have to make on days they do not attend classes. There are no breaks at school, however, they are allowed to bring in food which they can eat during class. These extra measures will be valid until the 4th of December. If there are less infected within our school by then, the regular schedule will be maintained, starting the 7th of December. Please keep a close eye on 'Zermelo'; here it will say when and where your child's classes will be.

We try to do everything to avoid further spreading. We ask you to aid us with this. Please keep your child at home if they show any symptoms and test them. The facemasks are already being worn at school, and starting from December the 1st, they will be made mandatory.

If you have any questions, please reach out to the mentor.
I trust your support.

With kind regards,

Dyane Brummelhuis
Directeur Mundus College
